ABOUT US:

“Improtex Trucks and Buses,” a crucial and rapidly growing division of the “Improtex” group, was established in 2005 and began its operations as the official importer of “MAN Truck&Bus” SE. With a prominent position in the commercial vehicle market, “Improtex Trucks and Buses” imports various types of equipment for different purposes: construction, long-distance transportation, logistics solutions, food carriers, municipal vehicles, fire engines, heavy-duty transport vehicles, and more. Our company is the official importer of brands such as MAN, Bobcat, Temsa, Mitsubishi Fuso, SDLG, Doppstadt, FAUN, Rosenbauer, Gates, and Siroil. Each brand comes with sales and after-sales service. Located at the 15th kilometer of the Salyan highway, this center has been in service for over 15 years, maintaining its original appearance since the day it was first built, while incorporating various types of buildings and facilities. The company owns more than 50 state-of-the-art construction machines. Primarily manufactured in the USA, Germany, and South Korea, these machines and our experienced operators ensure the execution of all construction projects with the highest quality. Our company also sells original spare parts.

BUSES

MITSUBISHI FUSO

As “Improtex Trucks and Buses,” we are the official distributor of Mitsubishi Fuso commercial vehicles in our country starting this year. Our company imports Mitsubishi commercial vehicles ranging from 3 tons to 9 tons into our country.

As “Improtex Trucks and Buses,” we have been importing buses belonging to the Temsa brand, used for both intra-city and intercity passenger transportation, into our country since 2022.

Our company has been officially partnering with the Bobcat brand since 2007. Bobcat is one of the world leaders in the production of construction, agricultural, landscaping, municipal, industrial, and mining equipment. Our company engages in the sales and rental of Bobcat brand machinery and equipment. The Bobcat brand offers a variety of equipment types, including:

- Skid-Steer Loaders
- Mini Track Loaders
- Backhoeloaders
- Telehandlers
- Compact Wheel Loaders
- Compactors

BOBCAT

Shandong Lingong Construction Machinery (SDLG) is a leading international manufacturer of construction machinery and a high-tech company, established in 1972. SDLG produces over 100 products across three categories: loaders, excavators, and pavement construction machinery. Its main products are recognized as famous brand products and renowned trademarks in China. SDLG has received numerous prestigious titles, including being named among the Top 100 Enterprises in China's Machinery Industry, Leading Enterprise in the Industry, Trustworthy and Reputable Enterprise, Single Product Champion Demonstration Company in the Manufacturing Industry, National Labor Medal, Governor's Quality Award, National Quality Award in Machinery, National Quality Award, Asian Quality Excellence Award, EFQM Global Excellence Award, and National Quality Benchmark Company, among others.

SDLG has created an open and efficient system for technological cooperation and innovation by maintaining solid partnerships with leading universities and research institutes in China. It houses a national-level technical center and a Ph.D. work station. The company has obtained more than 290 national patents and has completed several R&D tasks under China's 863 Program and other provincial and national-level initiatives.

SDLG

AMMANN

AMMANN

AMMANN is a world leader with core expertise in road construction and transportation infrastructure. As “Improtex Trucks and Buses,” we have been officially partnering with the AMMANN brand since 2007. We import AMMANN's Asphalt Rollers, Tandem Rollers, and Asphalt Plants into our country.

DOPPSTADT

Doppstadt

SERVICE

Improtex Trucks & Buses official service specializes in this field with professional experts, providing professional service to machinery and vehicles using modern and high-level equipment.

“Improtex Trucks and Buses” service is available 24/7 to eliminate faults in machinery, perform accurate diagnostics, and provide several other services.

RENTAL EQUIPMENT

The company has more than 100 rental equipment units. The equipment is mainly manufactured in Germany, the USA, and South Korea, and our experienced operators ensure the high-quality execution of all construction projects.

One of the successful production areas of the Improtex Industries plant is the tarpaulin semi-trailer called "Imtrailer".

The front wall of the semi-trailer is made of corrugated (profiled) steel sheet combined with sandwich laminate, which ensures its optimal strength. If the front wall is deformed due to loads, it can be easily restored, reducing the repair costs of the semi-trailer. The door portal is made of corrosion-resistant galvanized steel profile. Rubber dampers are attached to its edges to protect against deformation and distribute energy. The doors, produced by the Belgian company Versus, are made of aluminum sheets and are lightweight, which increases the performance and lifespan of the seals and door hinges.

"Gates" manufactures hydraulic hoses and fittings for both specific applications and versatile use, ranging from low pressure to ultra-high pressure. The hose systems from the "Gates" brand are reliable, durable, and productive, possessing more than 20 international standards and quality certifications. As an American brand, "Gates" will become a part of your business with its high-quality and long-lasting products. "Improtex Trucks and Buses" company is the official representative of "Gates" in Azerbaijan.

SIROIL

SIROIL

SIROIL offers a wide range of products to meet the needs of national and international markets. SIROIL is an ideal choice to ensure increased engine performance and lifespan, as well as reduced consumption costs and emissions. The SIROIL range includes products for automobiles, motorcycles, commercial vehicles, and agricultural machinery engines. Some of the SIROIL series products have passed the required tests by major companies such as DAIMLER's MERCEDES-BENZ engines, as well as MAN and VOITH.
